

EPA's Procedures for Prioritization of Chemicals for Risk Evaluation Under TSCA; Final Rule (RIN 2070-AK23)

EPA Response to Interagency Comments Received Via OMB on 06/01/2017

June 7, 2017

RIN2070-AK23_EO12866_Prioritization-FRM_EPA Response1_2017-06-07.docx

On June 1, 2017, EPA received 57 interagency reviewer comments on the draft final rule from OMB. For completeness, comments are repeated verbatim and in the order they were presented. EPA's response follows each comment. The Agency greatly appreciates the interagency efforts to review and comment on the draft final rule in an expedited manner and would be pleased to schedule interagency conference calls to discuss particular issues of concern to reviewers to help facilitate the prompt resolution of their comments. Interagency conference call requests should be addressed to Danielle Jones, the OIRA desk officer for this review.
